

April 19, 2023 PTAC Meeting

ACPS Update

Summer learning registration is taking place right now and there is already an overwhelming response. Summer learning will take place from June 26th to July 20th. It will be from Monday-Thursday from 8:00am-12:00pm for elementary schools.

School Board Update

They are in the final stages of superintendent search and are very close to bringing forward someone. It is moving forward and they are very pleased on how the search has come about and where they've landed.

Guest Speakers

Dr. Marcia Jackson (ACPS Chief of Student Services and Equity): They update code of conduct every year. Everyone has a chance to weigh in on the code of conduct. They want to continuously approve and give us the right data points. Always want to hear from students, their voice is so important. Want to give right guidance and support for them to keep them in school and access their education.

Programs, Julia Sylla, VP Programs

If you are interested in hosting a bike rodeo/safety event, let Julia know. Supporting film screening of "Screenagers" May 12th at the Middle School. Looking forward to supporting MVCS Blessing in a Backpack event on May 13th from 9:00am-10:00am. They would love company.

Special Education Committee, Dena Penner, Chair

The need for true inclusion doesn't happen, especially at upper grade levels. The Parent Resource Center has to have a more elevated role. Any parents new to Special Ed need to be able to find what they need. They have special ed reps from Polk, Patrick Henry, Jefferson Houston, and Brooks. They would like to have a Special Ed rep for all of the schools..
